REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Applicant's argument and amendment have been found persuasive and have overcome the prior art of record. Wickham shows the concept of automatically releasing the brakes in order to perform maintenance or repair works the same as Applicant. In order to release the brakes for repair, the brakes have to be moved back further than a release just to stop braking action as stated by Wickham in column 24, lines 21-29. Wickham accomplishes this task by using a common electric motor 201 the same as Applicant. The difference being that Wickham uses one electric motor 201 to apply, to adjust and to release for various purposes while the instant invention uses two electric motors; and the task of releasing the brakes due to emergency and repair work is performed by the wear adjuster and not the actuator as claimed in claim 4. None of the prior art teaches or suggests this concept.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Information Disclosure Statement

2. The information disclosure statement filed 3/6/08 fails to comply with 37 CFR 1.97(c) because it lacks a statement as specified in 37 CFR 1.97(e). It has been

placed in the application file, but the information referred to therein has not been considered.
